REPORT OF SCHOOL BOARD.

During the past year, the schools throughout the town have enjoyed the usual degree of prosperity. In no instance, as far as we know, has any school failed to accomplish a satisfactory amount of work. Without exception, the teachers have been faithful and efficient in the discharge of their duties. Parents have co-operated with teachers and school officers, and to this fact our schools owe no little of their success. Though our schools are small in numbers, and our teachers poorly paid as compared with those of larger towns and cities, they are doing a work of inestimable value to the community and state. A free, self-governing people must, of necessity, be an educated people; and, as the masses receive their education in the public schools, how very important that they receive our earnest support and encouragement. Schools have been provided in seven of the nine divisions of the town. Owing to the small number of pupils in the Mountain division, it was thought best to provide transportation to the school at the Center, which was accomplished at a reasonable expense.

There being few, if any, children of school age in the Brooks division, no school was provided at that place. A considerable sum, arising from the income of the "Penniman Fund," has accumulated in this division. It would be well for the town at its annual school meeting to instruct the school board in regard to this unexpended income.

Few changes have been made in text books the past year. A change of reading books will be required in the near future.

The school buildings throughout the town are in very good repair, and, for the present, will require but a small annual outlay to preserve them in good condition.

We present brief reports of the several schools, and a report of the treasurer.

GEORGE N. GAGE,	} School Board.
WILLIAM H. DOWDEN,	
SUMNER N. BALL.	

DIVISION 1. SUMMER TERM.

The summer term of school was under the instruction of Miss Mary L. Hayes, of Peabody, Mass. Her wisdom and discretion gave high value to her services. Her work evinced fidelity and efficiency, and a fine moral influence seems to have been exerted over her pupils. Wages of teacher per month, including board, \$30. Length of school ten weeks. Number of pupils, thirty. Visits of committee, six. Whole number of visits by others, forty. Number of scholars attending different studies, reading 30, spelling 30, penmanship 30, arithmetic 30, geography 19, grammar 12, composition 20, drawing 30, vocal music, 30.

Pupils present every half day of a term.

DIVISION 1. FALL TERM.

The fall term of school was under the instruction of Miss Mary F. Fowler, of Biddeford, Me. The pupils under her judicious management and thorough instruction made good progress in all the branches taught, in fact we cannot see how scholars could fail to improve, under her method of teaching, if they attended punctually and applied themselves closely to their studies. Wages of teacher per month, including board, \$30. Length of school twelve weeks. Number of scholars, thirty-four. Visits of committee, six. Whole number of visitors, thirty-six. Number of scholars attending different studies, reading 33, spelling 34, penmanship 34, arithmetic 34, geography 21, grammar 16.

Pupils present every half day of a term.

Harry E. Newman,

Ethel C. Trow,
Ethel L. Goodwin.

W. H. D.

DIVISION 3.

BALL'S CORNER.

Both summer and fall terms were taught by Miss Addie R. Page of Washington. She has previously taught the same school, and all her efforts have been crowned with good success. Wages of teacher, per month, including board, \$20. Length of school, summer, nine weeks, fall, thirteen weeks. Whole number of scholars, seven. Visits of school board, four, whole number of visitors, thirty-seven. Number of pupils for year attending to different studies, reading 7, spelling 7, penmanship 7, vocal music 7, grammar 2, arithmetic 7, drawing 7.

Pupils present every half day.

Waldo Farnsworth,
Johnnie S. Ball,

Vieva L. Farnsworth,
Nina M. Ball.

S. N. B.

DIVISION 5.

EAST WASHINGTON.

The school for the year was taught by Miss Bessie H. Prince, of West Salisbury. This was Miss Prince's second year in this school, and the work done was but a continuation of the good work of the previous year. It would be difficult to overestimate the services of Miss Prince in this school. The pupils of the school, aided by their teacher and a few friends, have replaced their worn-out flag by a new and beautiful one.

Number of weeks school, first term, nine, second term, eight, third term, eight. Number of pupils, first term, twenty-three, second term, twenty-two, third term, sixteen. Number of pupils attending to the different studies, reading 28, spelling 28, penmanship 28, arithmetic 24, geography 14, grammar 10, history 12, composition 15, physiology 2, book-keeping 1, algebra 2. Number of visits by committee, first term three, second term, three, third term, two. Number of visits by others, first term, thirty-one, second term, twenty, third term, thirty-seven. Wages of teacher per month including board, \$32.

Pupils present every half day.
